1. Deputy Director for Administration

16 JUN 1977

JS

Attached at Tab A is a letter from [redacted] who resigned from NPIC in June 1970. He left the Agency completely on his own volition for health reasons. In short, he stated his doctor suggested he take a less frustrating job to reduce his nervous condition, etc.

OD/Per [redacted] mm (14 Jun 77)

Shortly after leaving the Agency he asked to return and was considered but eventually turned down. In February 1971, regarding his desire to return, [redacted] of NPIC told him that his personal advice was that "you," meaning [redacted] "should not include NPIC in your future career plans." In 1976 he wrote again concerning employment and again was rejected. Our most recent contact has been on 20 May 1977 at which time he met with [redacted] the OP Freedom of Information Officer, to review his file. More detailed information is attached at Tab B.

Attached at Tab C is a report from the Executive Officer/NPIC responding to [redacted] comments concerning the intelligence analysis that preceded the TET offensive. In summary, it appears that NPIC did let [redacted] views come forward for consideration.

Attached at Tab D is a suggested letter from you to [redacted]

STATINTL

Thank you for your letter of 25 May concerning your interest in reemployment.

I have carefully reviewed your letter and your record and sought the comments of others. As I understand the situation, you resigned in June of 1970, citing reasons of ill health. Shortly thereafter you asked for reinstatement. At that time our tight hiring situation resulted in your not being offered reemployment. You have since been in touch with us, of course, regarding reemployment and, at the times that you have reapplied, there have been no other suitable openings for you within the Agency. That situation remains the same as of this date.

In regard to your statement concerning the objection of management to publication of your findings, I am advised that the information derived by you and other analysts at the Center was discussed and reviewed by the appropriately constituted working groups. Needless to say, there have been many times in the past and no doubt will be in the future in which there are divergent views on analyzing certain aspects of intelligence data. While I appreciate your writing and bringing this information to our attention, this subject has been reviewed in the past, and we do not believe it would be fruitful to take up your time with further discussion of the matter.

STATINTL

I do wish to assure you that we appreciate your past service and wish you every success in the future.

Yo

STANSFIELD TURNER

I find no evidence to indicate that you were not reinstated because of failure of several officials to recognize the value and importance of your reports. I do wish to assure you, though, that we appreciate your past service and wish you every success in the future.

Yours sincerely,

STANSFIELD TURNER
